

Publications and Acknowledgment

The following acknowledgment statement must be included in all published reports of work using the HPCAT facility (including the beamline and/or laboratory equipment). After the paper is published, five reprints or a pdf file must be sent to Veronica O'Connor <voconnor@hpcat.aps.anl.gov>.

The bare minimum statement:

"Use of the HPCAT facility was supported by DOE-BES, DOE-NNSA (CDAC), NSF, DOD –TACOM, and the W.M. Keck Foundation."

(plus what is required by APS, see http://www.aps.anl.gov/aps/frame_home.html >> Publication >> Acknowledgment Statement for Publications)

The following is preferred and can be included, whole or in part, if authors so choose and space allows.

"HPCAT is a collaboration among the Carnegie Institution, Lawrence Livermore National Laboratory, the University of Hawaii, the University of Nevada Las Vegas, and the Carnegie/DOE Alliance Center (CDAC). We thank the HPCAT staff (name the individuals) for technical assistance and scientific input (if any)."

If the affiliations are given earlier in the paper then abbreviations will suffice (e.g., CIW, LLNL, UNLV...).

If the authors feel they need to include additional grant/contract numbers (for the above and for other grants), they should do so, but something like the above minimum must be in every paper.
