The **Watec WAT-231S2** is an ultra compact box CCTV camera with a 1/3" color CCD, a super high resolution of 540 TVL, and a good low light sensitivity of 0.05 lux. It also employs a number of electronic controls, among them AGC, MGC, and BLC, to compensate for a variety of lighting environments. Another important feature of this camera is auto white blemish compensation - a function that can detect and correct overly bright pixels in the image (up to 32 pixels). For flexible connection options, this camera features both a composite (BNC) and S-video output port. A standard CS lens mount offers compatibility with industry CCTV lenses including those with auto iris DC or Video capabilities.

- Ultra compact (1.7 x 2") and lightweight (4.9 oz) camera
- High image quality with 1/3" CCD and 540 TVL of resolution
- Auto and manual white balance and gain settings
- Supports auto iris DC and Video lenses
- White blemish compensation for adjusting overly bright pixels
